

Project Description

Allow a user to enter their currently taken classes, and based on that input display the courses they can take next semester.

Project Directories

/

The root directory of the project. Contains the other project directories. Most of the .php files are stored here as well.

css/

contains the CSS used for styling.

desc/

text files with class descriptions

doc/

The doc/ directory contains most of the project documentation and file overviews. A synopsis for all project files can be found in the doc/ directory.

/DB Tables/

This is a subdirectory of doc/ that contains information on the structure of each database table used in this project.

images/

The image/ directory contains the background images used for the website.

js/

contains some javascript used for styling purposes
